Why study online?

There are many reasons why students choose to learn online including family, distance, skills, convenience, work needs etc.

Benefits include currency of information as resources are easily updated online, learning is self paced and self controlled – students decide when, where and how learning should take place and course costs are generally lower compared to classroom sessions.

The self-directed nature of online learning can equip students with the skills and discipline needed for professional life.

Is online learning for you?

Online learning is different in many respects from the traditional face-to-face learning we're all used to, primarily in the way we get our information and how we interact with facilitators. Online learners should be comfortable with internet browsing/searching, email, sending and reading attachments and word processing.

We are always there to help. Our telephones are answered 24 hours a day and you can always contact us by email or online chat.

See what some of our other students have said in the Testimonials section of our website www.realestatetraining.com.au

Please review the 'Student Handbook' located in the main menu of our website.

Course Completion

The nationally agreed time for course completion is 30 hours. However, students undertaking the course with our college take approximately 1 to 2 weeks to finish. There is no time restriction and you may choose to complete studies in more or less time.
